INSULATING THE WORLD

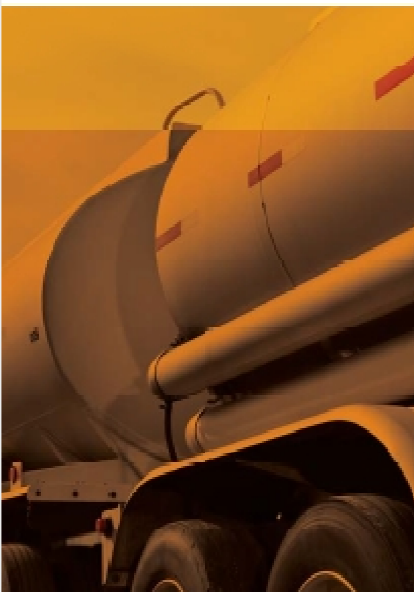

COMPANY PROFILE – INDUSTRIAL CONTRACTING

Insulation Industries Pty Ltd was founded in 1967 in Hamilton, Newcastle NSW. Since this time our operation has specialised in all facets on industrial insulation contracting. The company has been involved in countless minor and various major industrial projects in a geographical area which covers all states of Australia, Japan, Singapore, Laos, Papua New Guinea and other Asian and Pacific countries. The scope of industrial works undertaken by the company includes:

- Installations to bulkheads, deck heads and pipe work in the marine industry
- The insulation of pipe work including brine lines, chilled water, refrigeration pipe work, steam lines and hot water pipes
- The insulation of vessels such as boilers, brine tanks, road and rail tankers and wine tanks
- The manufacture and insulation of air conditioning duct work
- Acoustic insulation to enclosures, plant rooms, machinery and pipe work
- Insulation to cryogenic equipment and food processing equipment
- Fabrication and installation of removable heat covers
- All aspects of domestic and commercial building insulation

In addition to our industrial contracting division our business includes the retail and wholesale distribution of a wide array of insulation products, ventilation equipment, acoustic materials, air conditioning duct and grilles, sealants, adhesives, building products and associated hardware. Our years of insulation experience in the fields of air conditioning, construction and noise control serve to complement and support our industrial contracting division with extensive product knowledge in these areas.

Insulation Industries Pty Ltd is a proud Australian family owned company dedicated to excellence in the field of industrial insulation contracting. Work completed on time and to budget is our highest priority. Our lifetime of success in this field gives testimony of our dedication to quality in all our work.

**IF YOU ANSWER YES TO ANY OF THE FOLLOWING QUESTIONS...
WE CAN SAVE YOUR BUSINESS VALUABLE MONEY**

QUESTION

Do you have any uninsulated pipework and vessels on your plant?
Steam – condensate – heating water – hot oil – furnace ducting – chilled water – brine – glycol – ammonia – cryogenic

QUESTION

Have you had an employee on workers compensation with burns from uninsulated equipment?

QUESTION

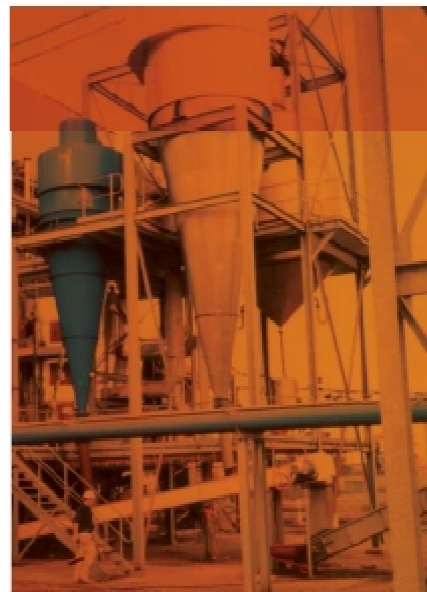

Are noise levels from equipment too high?

QUESTION

Are energy costs escalating and budgets being blown out? With the greatest single operational cost being the purchase of energy, the use of insulation to slash heat losses is essential.

QUESTION

Do you have any interest in reducing your energy costs? A wise first step is to contact Insulation Industries. We will then arrange for an inspection and recommend what action we believe will be necessary to reduce your energy waste, improve personnel protection, or to reduce unwanted noise.

SUMMARY OF INSULATION PRODUCTS AND ACCESSORIES

▪ Rockwool Pipe Sections	– Blanket	– Board
▪ Fibreglass Pipe Sections	– Blanket	– Board
▪ Glasswool Pipe Sections	– Blanket	– Board
▪ Ceramic Fibre	– Blanket	– Board
▪ Calcium Silicate Pipe Sections		– Board
▪ Temp Mat	– Blanket	
▪ Foamlglass Pipe Sections		– Board
▪ Polyurethane Pipe Sections		– Board
▪ Polystyrene Pipe Sections		– Board
▪ Thermotec Pipe Sections		– Board
▪ Armaflex Pipe Sections		– Board
▪ Acoustic Foams		
▪ Insulation Cloths	– Tapes	– Ropes
▪ Mastics	– Sealants	– Adhesives
▪ Fastening Systems	– Screws	– Rivets – Studs – Pins – Clips
▪ Fabricated Sheetmetal Insulation Covers		
▪ Heat Covers for Steam Pipes	– Boilers	– Exhaust Systems
▪ Heat Transfer Cement		
▪ Aluminium	– Galvanised	– Stainless And Plastic Strapping And Seals
▪ CI 100 Ceramic Spray Insulation (for equipment operating between 0°C to 180°C) advanced technology new to Australia		
▪ Aerogel Insulation (for equipment operating up to 1000°C)		
▪ Specialized Sheetmetal Workshop		
▪ Stockist Of	– Stainless – Aluminium – Galvanised – Colour Bond – Zincolume	– Zinanneal And Copper Sheets
